Happy New Year
JONI LAMB

I have been going through a dark season of sickness and I have watched Daystar daily and look so forward everyday to see *Joni Table Talk* and *Ministry Now*. Today, I saw Joni's smiling face, praising and worshiping Yeshua, and I cried. Even in their loss of Marcus, they continue to push through and be an encouragement to a hurting world! God bless you all at Daystar!

THE DOORWAY TO REVIVAL

with Apostle Guillermo Maldonado

How important is faith in the Latin community, and how do you approach addressing their spiritual needs?

GM: For the Latin community, having “faith” is part of their culture and idiosyncrasy. This is a community that is given to “believing” and having faith from a very young age. Therefore, the people are quite sensitive and open to the spiritual. It’s rare to find any skeptics among the population.

The challenge is not the lack of faith among Latinos but channeling that faith towards the true God. One of the ways I like to approach the people’s spiritual needs is by leading them to have an encounter with God’s supernatural power. In my experience, it’s the most effective way. Encountering the true God and His presence with powerful and impactful demonstrations of the supernatural leaves no room for religion. It replaces it.

You’ve been a Daystar Programmer for many years. How has being a part of Daystar helped you minister to more people in the Latin community and beyond?

GM: For me, Daystar has been a bridge of access and an open door to reach more people, not only in this community, but globally. Technology has evolved over the years, to the point we can travel anywhere with a tap of our fingers. This makes our mission of the evangelization of the world much more achievable. Daystar is definitely a part of that movement. It has given me a greater reach to expand and make known the supernatural all over the world.

However, the same applies to the opposite. Yes, there has been expansion of the gospel spread across the world, but I’ve also seen it reach even the smaller corners of the world, to people and families who may not have the means to join us so easily due to their circumstance or environment. This influence has allowed me to present God to all types of people in a real, palpable, and fresh way.

How can the Church better minister to those here in the U.S. and abroad who come from Spanish-speaking backgrounds and cultures?

GM: The key is to be open. To take the global vision of God and make it part of the Church’s environment, not only to a select group according to their culture. As the Church, we cannot feel called only to certain groups. Doing so will only establish a limit between our communities. It is important to broaden our vision, change our environment, and take new steps of faith that will incorporate people, not separate them. This creates real possibilities for other cultures to be part of and have access to God, as well as take their place as the body of Christ.

One day God spoke to me and led me to change the services in my local church from being only in Spanish to opening another one in English. It took a step of faith, and a lot of work, but because of His global vision, He made it happen. This is just one example of how the Church can better reach others.

What is the key to revival, particularly in Latin American communities?

GM: Revival, or being revived, involves having a hunger for God, having a personal encounter with God (*not* a religion), and being open to change (especially in one’s heart and mentality).

What does it mean to you to be part of Daystar’s vision to show God’s love to the Spanish-speaking people of the world through Daystar Español?

GM: To be part of this new vision of Daystar is an honor and a privilege. It touches my heart greatly because this vision clearly reflects God’s heart for the people, which is reaching not only a select group but every race, people, and nation.

How important is it for the Church at large to support efforts to reach and minister to the Latin Communities?

GM: I have to agree that this is very important. This is the Church’s opportunity to be part of God’s vision and join in on what He is doing in this time. To support these efforts is simply a form of pouring out what we have received from God. He has always trusted us to be the vessels and representatives of His power. Therefore, everything He imparts to us has always been for the benefit of His people. Faith must be accompanied by works.

What is one beautiful thing about Latin Culture that you wish other cultures knew about?

GM: What I love about the Latin community is that it tends to be more “open” and familiar with each other and the people around them. It is rare to find Latinos interacting in a cold way. They are a warm, close-knit community and will always make you feel at home.

What is the Lord showing you prophetically regarding revival among Spanish-speaking communities, and what type of role is Daystar playing in that?

GM: God has been speaking to me for some time now about an awakening that He wants to bring to His global church. But I perceive the Spanish-speaking communities will be the ones to take this to its full potential. There is a change taking place, which is provoking a desire for more. Soon, the old or the learned (in the sense of lifeless practice) will no longer be enough. People will want an increase in their lives of the real God. The Living God. This awakening is the doorway to revival. God is bringing a change not only in the hearts of adults, youth, children, and families of this community, but also in their mentality. A change to begin to see the world as He sees them in the now. God is bringing a spiritual increase to this community. It is like a fire that has been lit but needs to be expanded and that is where Daystar Español will play an awesome role because it will be that propeller to bring that move of God, that revival, to the people through its reach. I believe that God will use the Spanish-speaking community to be the center of this revival and expand it to the whole world.

To be part of this new vision of Daystar is an honor and a privilege.

THE RETURN OF THE GODS

In the shadow of the Capital Building in Washington D.C., two members of Congress meet with a shady organization head. They discuss legislation that will make all parties rich despite the fact that it will likely cost people's lives. From a nearby rooftop, two otherworldly beings look on. They are dark figures. One bares an ancient Egyptian symbol on its aged armor. The other adorns an amulet with a forgotten name written in old Greek. The two government officials have no idea they are caught in a web of deception engineered by these two beings.

A third, more disfigured being joins them. He is more imposing than the other two. He is brandished with many names written in script of a hundred dead languages. With a growl in his voice, he says to the others, "The final phase is almost upon us." This statement pleases the others.

Thousands of years ago, these ancient beings were exalted as deities, worshiped by the men they enslaved with their idol effigies until a far greater power toppled their empire of wickedness. Now they have awakened and returned to send the world into darkness and brutality once again.

Discover the shocking truth behind a forgotten ancient mystery that reveals what these beings really are, their sinister agenda, and how they are connected to what we are seeing happen in our world today as revealed in Rabbi Jonathan Cahn's book, *The Return of the Gods*. We believe that much of what we are seeing in news headlines is the product of the End Times, and as

believers, we know that there are spiritual forces at work. These agents of chaos warring against humanity have an agenda, and Rabbi Cahn's book pulls back the curtain to expose the roots and plan behind what's really going on. This book is so timely that we wanted to make it available to you to safeguard you and your family from the growing deception perpetrated by these ancient spirits. As the Body of Christ, we are called to declare the truth of God's Word to the nations, and we must be equipped with a clear understanding of who are enemies are. It's not flesh and blood, but powers and principalities!

To get your copy of Rabbi Cahn's exciting new book, become a Daystar partner using the enclosed form. Through your giving, you'll also be supporting our work in the Holy Land. As a special thank you, we'll also send you the commemorative *One for Israel* certificate.

Don't wait! Uncover the truth behind the roots of these beings and the key to their defeat before time runs out.
