FROM THE DISK OF MARCUS LAMB

Dear Partners & Friends,

We are now in the second half of 2013. And if you are over 40 (like me), then you are in the "second half" of your life! One of the most impactful books that I have ever read is "Halftime" by Bob Buford. Bob is a multi-millionaire businessman. In 1987, his only son, Ross, tried to swim the Rio Grande River and drowned. He was only 24 years old!

This was of course a great shock and a huge loss for Bob Buford. His life changed forever. In his book he talks about how the first half (or 40 years) of our lives most people spend "seeking for success." But the last half of our lives should be spent "seeking for significance."

I too want to spend this second half of my life doing something significant. In other words, I want to make a difference. The Bible says in Proverbs 11:30, "He that winneth souls is wise." And in James 5:20, "Let him know, that he that converteth a sinner from the error of his way shall save a soul from death, and shall hide a multitude of sins."

And in the second half of your life, you can do something **significant** too!

When you support **Daystar**, you are doing something very **significant**:

- 1) Fulfilling the Great Commission where Jesus said in Mark 16:15 "Go ye into all the world, and preach the gospel to every living creature." (Daystar is in every country!)
- 2) Daystar is still the only Christian TV Network that is on TV in all of Israel reaching the Jewish people. (This is fulfilling end-time Bible prophecy!)
- 3) Taking the gospel to shut-ins, hospitals, nursing homes, prisons, hotels & the unchurched.
- 4) Having a 24 hour a day Prayer Line.
- 5) Helping to provide a platform for great ministries like: John Hagee, Bishop Jakes, Joel Osteen, Joyce Meyer, Kenneth & Gloria Copeland, Charles Stanley, etc.

Don't you want to finish strong by doing something "significant" in the second half of your life? If so, then please support Daystar! Stand with Joni & me.

Blessings.

INDIA MOTORCYCLES AND MOTOR SCOOTERS

Taking the Gospel into more countries, more homes and more lives! That's what Daystar is all about. And recently on our trip to India, we were able to do just that thanks to the generosity of our partners around the world.

With thousands of men, women and children living in the slum areas of New

Delhi, the potential to show the love of Jesus and minister to their spiritual needs is great. As part of this effort, Carmel Community Ministries, under the leadership of Pastor Koshy and Joicy Baby, sends out a team of pastors each day who travel miles on foot to reach those deep in these areas, but this can be time consuming and severely limits the number of people that can be ministered to.

That's why on behalf of our partners, Daystar provided these pastors with much needed motorcycles and motor scooters. Now they can go farther and reach more people each and every day. By being a Daystar Partner, you're helping to take the Gospel around the world, and together we're changing more lives than ever before.

As we grow in Christ we realize that we are utterly hard-wired to be God-dependent – that our soul has been spiritually primed to know him and to be fed by our loving Creator Parent (Tim. 4:15; Jas. 1:16-18). As we grow older, if our heart grows wanton, lonely or despondent, the Holy Spirit primes the pump of the soul with a refreshing drop of heaven's elixir, stirring within us a desire to seek more of God – to know and be assured He is always there for us. As we develop and grow in maturity (Col. 1:10), God helps us to see the world as an expression of divine

love in which we are called to participate by helping others with our gifts of prayer and even our finances. This supernatural feeding of our soul toward helping others elevates God to Supreme Parent, and gives meaning to our lives in a greater context of genuine spirituality. Being spiritually primed and feeding upon God-things enable us to focus on the positive, to see our existence as an expression of the divine attributes of love, power, strength, beauty and meaning; it uplifts and nourishes us in life's journey (Psa. 92:12-14). As his sons and daughters – looking at the world as the handiwork of

our Beloved places you and me in the loving embrace of his divine care. It elevates our thoughts and brings the importance of God to a new level (Col. 2:6-7). This is where we live to be a blessing to others, where we really become aware of a world in need (Col. 3:16). Having been born-again, we seek the spiritual inebriation of the wine of the Holy Spirit to daily feed and care for our souls, increasing the sense of belonging and being loved by an Almighty, All-Knowing, All-Wise God.

COVER THE EARTH

With a signal that's broadcasting in nearly every country of the world every day, Daystar is growing like never before, and it's thanks to our partners around the world.

Covering countries from the former Soviet Block and the Far East to Europe, South America and more, we're blanketing the Globe with the Good News! And with a global population of over 6 billion people, that's a tremendous amount of lives that can be touched and changed.

Together we've made history by launching Daystar into places like Hong Kong and Nepal, and who can forget that exciting moment when we powered up on Israel's two major cable and satellite services, making us the first and only 24-hour Christian Network broadcasting into every home in the Holy Land.

And the good news just keeps coming! This year we expanded yet again, launching in the great country of Canada. And we're already hearing great feedback on how our extensive, multi-cultural programming is starting to touch lives.

But there's still more work to be done! Did you know analysts predict within the next couple of generations the world's population will exceed 7 billion? That's a lot of growth, but don't worry, Daystar is working hard to expand our reach even further so no one misses the opportunity to hear about Jesus.

Remember, by partnering with Daystar, you're doing more than just supporting your favorite programming. You're changing lives and empowering the signal to cover the earth.
