Making an Impact
MARCUS LAMB

"My mother has prayed constantly for my sisters and me to receive salvation. She told me to watch Daystar, but I didn't listen until I recently went through a horrific domestic violence situation. I felt so lost and wanted to know more about Jesus, so I tuned into Daystar one night. I began to watch more and more. Now I love watching 'Joni Table Talk' as much as possible, and I recently saw a sermon by Marcus Lamb that touched me. I've finally prayed for salvation."

GOD OF THE SUPERNATURAL

WITH GUILLERMO MALDONADO

Q: What was the most powerful supernatural encounter that you have witnessed or experienced?

A: As of 2016, it was India and Mexico. I think those two were at the same level. In Mexico, we saw the Spirit come on the people, and 14 people in wheelchairs got up in one moment. In India, we saw the most impressive, creative miracles – people missing bones and hips – all kinds of miracles. So I would say India and Mexico.

Q: Is there one miracle that you have seen that has stood out above the rest?

A: I think it has been as a whole, not just one, but all the creative miracles where people have been missing organs. God's been creating a lot of organs.

Q: When did you first experience or witness a supernatural encounter?

A: First of all, no one can move in the supernatural unless he or she had a personal encounter with the supernatural. God appeared to me and said, "I called you to bring My supernatural power to this generation." Since that moment when God impacted my heart and I had that experience with God, I started to release the supernatural, and people started having encounters.

Q: Do you have a favorite miracle from the Bible?

A: Actually, the Old Testament miracles with nature like the opening of the Red Sea. I've seen it rain where there was no rain. When I declared rain, it came. So, for me, some of the most powerful miracles I've seen are when God has done something with nature.

Q: Can you explain entry points for the supernatural and how we can protect ourselves?

A: To enter into the supernatural, you enter by two means: 1) by any impossibility – you don't know that God is supernatural until you need the God of the supernatural. Usually when man faces crisis, the instinct is to seek for God; and 2) by hunger. When there's hunger in your heart, that is the means to enter into the supernatural.

To be protected from the supernatural demonic, you just have to be a lover of the truth. The supernatural of God is based on truth. When you love truth, God will always protect you from deception.

Q: How can people be healed and set free from supernatural attacks?

A: One of the ways to be healed from supernatural attack is understanding that you have a power and authority given by Jesus Christ as a believer. You don't have to have a special gift to cast out demons and when you see those attacks in your mind, as a believer you have the power and authority to cast them out.

Q: How can the average person perform miracles and

minister to the sick?

A: There's a mindset in the church that only people with a special gift can do miracles or move in the supernatural, but actually it's not. There are people who have those gifts, but Mark 16:15 says, "These signs shall follow those that believe." In other words, the requirement is being a believer because the power of God is not based on personality. You don't have to be a big personality for the power of God to be upon you. It just takes being a normal believer who believes the Word, and you can cast out demons! I have activated thousands upon thousands of believers, and they're doing exactly what I do.

Q: Why do you think the church is not reaching many of the sick and hurting?

A: There are so many reasons. The first reason is the master plan of the enemy is to make the church a natural entity, meaning the devil wants the church to try to do what God called us to do through natural abilities. And that is impossible. So the tendency of the church is to fall into that temptation – to do the work and ministry of God by natural means. The second reason is the lack of knowledge. There's a lack of knowledge in the supernatural. Truth is not being exposed correctly and coming into the church.

Q: How can people protect themselves from the devil's deception?

tion?

A: As I've said before, you have to love the truth. When you do that, God will protect you from deception.

Q: Can you explain about the 2 hearts that a person has?

A: There are different types of conditions of the heart – a hardened heart, a broken heart. One of the most dangerous conditions that the heart can be in is the "hardened heart." When you harden your heart, you can't feel God because of your past, hurts, or rejection. So many people, because of what has happened in the past, have hardened their hearts. I think it's important to have a condition of the heart that is clean and healed.

Q: What can our viewers expect when they tune in for "The Supernatural Now" on Daystar?

A: They can expect first to grow in the knowledge of the supernatural, meaning what the Holy Spirit is doing and the things of the Spirit. They can expect to be activated. They also should expect to receive an impartation and to receive their healing and miracles. And they should expect to be empowered to become a miracle worker. It's not only receiving their miracle, but becoming someone who has the power to heal and deliver people.

THE Priceless BLESSING

It started like any other day. She woke with the sunrise, greeted her children with a smile and went to the cupboard, opening the door, she removed a half-empty bag of grain, quickly making breakfast. After eating, they headed off to morning worship.

Stopping at the offering box as they entered the building, she excitedly gave her last two coins. In that simple act, heaven took notice. From that day on, her story has been told for generations, immortalized in the Gospels.

When you give out of faith, you draw God's attention, and His heart swells with joy and an eagerness to move on your behalf. During spring's Heart for the World, Daystar gave viewers the chance to put action to their faith to touch the lives of the Jewish people. When you give to impact Israel, you are attaching yourself to God's promise in Genesis 12:3 that says He will bless those who bless His people.

To commemorate this act of love, partners will receive the Priceless Blessing gift set, an authentic first century widow's mite and olive display box from the Holy Land, a reminder of the widow's gift that stirred the adoration of Jesus. We also honored their generosity with our official "Heart for Israel" certificate.

We believe God will move mightily in their lives this year and are praying for abundant blessings to overflow.

If you would like to share in this blessing, it's not too late! Use the enclosed form to get the Priceless Blessing in your life today.

BEING A WORLD CHANGER

We just finished our spring Heart for the World, and I think it was our best one yet! So many gifted speakers shared the studio with us: Larry & Tiz Huch, Dr. Cindy Trimm, Francina Norman, David Crank, Apostle Guillermo Maldonado, Rabbi Curt Laundry, and many others. As our dear friend, Pastor Jimmy Evans, said during his segment on HFTW, *"God wants to change your life so that you can be a life changer."* That's what Daystar is all about... We want to see the power of the Gospel change your life so you too can be a world changer! A big thank you to all our partners who not only give but pray. Thank you and may God bless you and your family!

Something New

Pastor Nicole Crank

Just about the time we turn the calendar from January to March we start to forget that we're in a new year. For real. You even habitually started writing 2017 on your checks.

The anticipation of a fresh start has started to...fizzle. NO!!! I'm here to remind you that we serve a God of NEW beginnings. What's so big about that? Oh, 2017 is still new. March is a new month. This week is another fresh start. Not to mention this is a new day, and since you started reading this you have been given a new minute. That's a whole lot of new.

And your new doesn't depend on your old. LET GO OF THE PAST. Release the tendency to get complacent and reject the idea that you're stuck in the rut of what has always been. In God, old things have passed away and ALL THINGS have become new. Do NOT get hung up on your past. You're new. Every day and in every way. (2 Cor. 5:17)

"You don't know about where I came from," you say. God doesn't care where you came from. *Your past does not define your future, it prepares you for your future.*

No matter where you started, God has called you to something bigger than you are. Something NEW. He's doing something new in you that is springing forth no matter the desert of your past or the wilderness of your present. (Isa. 43:19)

So right now I want you to say out loud, "God has a bright and brilliant NEW future for me and it's headed my way – RIGHT NOW!"

"I called Daystar a couple of weeks ago to pray for my daughter-in-law. She was having problems with her kidneys. Shortly after our prayer, she went back to the doctor, and he told her that her kidneys looked much better. The swelling had gone down, and her pain was gone! Praises to the Lord, and thank you to the prayer team at Daystar!"
