# REACHING THE LOST & SCATTERED

WITH JONATHAN BERNIS

**Q: You have been a Jewish believer for many years. Describe when and how you accepted Jesus as the Messiah.**

**A:** I became a Believer back in 1980 while attending University. I was a business major and had just completed my sophomore year. A friend who had recently been radically saved and delivered from drugs began to witness to me. She had her entire church and Bible study praying for me by name. After several months of her constant phone calls, long conversations about what happens after we die and the meaning of life, I finally agreed to go to her Bible study.

After the study, the Bible teacher who led the meeting showed me Scriptures about sin, separation from God, and the gift of eternal life He offered through His Son. My heart was touched, and I prayed with him that night. A short time later, I began to read the Bible and discovered Jesus and all His first followers were Jewish! From that point on, my life was never the same. I knew the Lord was calling me into the ministry, and the following year I changed my major to begin preparing for this calling. I have now been in full-time ministry for almost 35 years.

**Q: Many Christians may not realize how widespread Jewish communities are around the globe. Describe your ongoing outreach efforts in some of these communities and how they formed throughout the world.**

**A:** After the exodus out of Egypt, God warned the Children of Israel that if they disobeyed His commandments, He would scatter them throughout the nations of the world. Sadly, that is exactly what happened. For almost 2,000 years, the Jewish People have been wandering the nations of the world without a homeland.

The good news is that He promised that although He would scatter them, He would eventually bring them back, both to their land and to their God. This happened in 1948 when the State of Israel was established and has been continuing until this day.

In the 1990's, I had the privilege of witnessing tens of thousands of Jewish People in the former Soviet Union hear and respond to the Gospel through our Festivals of Jewish Music and Dance. Since 1999, we have also been working with Jews in Ethiopia and now in Zimbabwe, South Africa, India, and other remote places like countries in Africa and Asia.

**Q: What are some common misconceptions that you've noticed when it comes to what believers think about Israel and the Jewish People?**

**A:** Many Christians believe the Jewish People have all rejected Jesus as Messiah and are not open to the Gospel. The truth is that most have never heard the true Gospel. They have been taught that the Christians blamed them for killing their God, Jesus Christ. When in fact, Jesus was a Jew!

Another misconception is that Jews do not need the Gospel because they have their own plan of salvation through the Mosaic Covenant. This is called Dual Covenant Theology and is a lie. There is one way to heaven for all mankind. In fact, the Gospel remains "to the Jew first" according to Romans 1:16.

A final misconception I want to mention is the idea that we don't need to share our faith with Jewish People now because the Jews will be saved at a later time, and today we are living in the time of the Gentiles. While I do believe there will be great outpouring on the Jewish

People in the future, Jewish people living today need the Gospel! Tens of thousands of Jews, like myself, have come to faith over the last four decades, and most have been led to the Lord through Christians like you.

**Q: What are the potential risks if believers remain silent when it comes to standing against anti-Semitism and supporting the Jewish people?**

**A:** I think a quote attributed to the great parliamentarian Edmund Burke best answers this question:

"The only thing necessary for the triumph of evil is for good men to do nothing." I will modify this and say "the only thing necessary for the triumph of evil is for true Christians to do nothing."

I believe the Bible clearly teaches that before the Messiah returns, hard times are ahead. We are already seeing many of these things taking shape, including the rapid rise of anti-Semitism. We may well see another holocaust...or worse. We cannot remain silent.

**Q: In over 30 years of ministering to the Jewish people, what moment has impacted you the most and why?**

**A:** This is a really hard question to answer since there have been so many impactful moments over the years. I would have to say seeing Holocaust survivors respond to the Gospel and accept Yeshua as their Messiah during our Festival outreaches has been a real highlight.

To witness people who have suffered so much receive God's love and comfort in the twilight of their lives and to embrace them as tears of joy and gratitude stream down their faces is simply indescribable.

**“THE ONLY THING  
NECESSARY FOR  
THE TRIUMPH OF  
EVIL IS FOR TRUE  
CHRISTIANS TO  
DO NOTHING.”**

# HOLOCAUST: HORROR TO HOPE

# God's Eternal Promise

by Laurie Cardoza-Moore

There has never been a time when the message of our program is more vital! Those who are familiar with God's promise to Abraham in Genesis to "bless those who bless you" often don't know that His covenant with the Jewish people is eternal. Unfortunately, we have reached a generation in Christianity where false teaching is rampant, spreading the lie that the Church has replaced Israel in receiving the blessing of God's covenant. Replacement theology, also known as Supersessionism, has crept into too many churches.

As host of *Focus on Israel*, I welcome you to tune in each week to learn the truth and how to defend it. Our mandate is to "educate Christians on their biblical responsibility to support Israel and our Jewish brethren and stand against the rise of global anti-Semitism." At a moment in time when anti-Semitism is up 87% globally, movements like BDS (Boycott, Divestment and Sanctions) are seeking to destroy Israel economically and increase violence against Jews every day. As Christians, we must understand the truth and start boldly sharing God's heart for Israel today!

Watch *Focus on Israel* Sundays at 12am ET on Daystar!
